I am writing in response to your advertisement for Software Engineer.
After reading your job description, I am confident that my skills and my passion for technology are a perfect match for this position.

I would bring to your company some skills, including:

- Created Automotive Software for high profile clients like **BMW, VW, PSA, FORD and Renault**

- Created Payment Software for Multinational/National banks

- Worked with **Qualcomm** to develop Communication software based on DMSS (CDMA 2000).

- Experienced with wide variety of Micro-controllers, Compilers and Debuggers (**Vxworks, OSEK, UCOS||, OSEK and REX**), (**ARM, AVR, MIPS, Freescale S12XD, NEC V850FF3**), (**CodeSourcery, ADS 1.2, GCC, ...**)

- Experienced in Model-Driven Development using IBM Rational StateMate®

- Experienced in Payment Industry: Bank messaging specs(**ISO-8583**), Global Card Schemes (**VISA, MasterCard**), PCI compliance, card security and Transaction security/EMV, Chip&Pin technologies **(EMV L2)** & Contactless, **ADVT/ M-TIP** - Type Approval testing

- Experienced in Requirement engineering and Elicitation Techniques.

- Supervise Validation, integration, Unit Testing and static code analysis.

- Good practitioner of **CMMI** Model and creating documentation for different process areas

I would welcome the opportunity to further discuss this position with you. If you have questions or would like to schedule an interview, please contact me by phone at +20111-000-9089 or by e-mail at swedan2003@gmail.com. I have enclosed my resume for your review, and I look forward to hearing from you.

Sincerely,
Mahmoud Swedan
